

REGULATIONS FOR PARTICIPATION AT "42 BASECAMP"

The present Regulations for Participation in "42 Basecamp" ("Regulations") define the terms of candidature and participation at 42 BASECAMP ("Educational Program").

The individual interested in participating in the selection process ("Selection Process") of the Educational Program ("Candidate"), shall register and respect the rules of procedure of the computer infrastructure and any online application ("Platform") detailed below.

The Candidate declares to have read and understood the established rules of procedures and undertakes to comply with them at all times, under penalty of exclusion from the Selection Process and/or the Educational Program. The Candidate who is successful in the Selection Process will be referred to as Student.

ARTICLE 1 - MISSIONS AND OBJECTIVES OF 42

42 is a free teaching and learning space that constitutes an educational community. It is an educational project that implies the active participation of Candidates and Students and aims, with a point to point method, to create a new, more collaborative and creative type of programmer. In order to function, a set of rules must be followed by Candidates, Students and the community in general.

The rules described below must be accepted by everyone. With the knowledge of the opportunity and the means that are offered to them, Candidates and Students are committed to respect each other's civic rules, to show great morality, to respect places and people, as well as to contribute to the proper functioning of the Platform and, when the Selection Process and the Educational Program are carried out in person, to observe the rules of the establishment of the 42 ("Establishment") and its associated missions.

ARTICLE 2 - SELECTION PROCESS

The Selection Process for participating in the Educational Program consists of three phases: (i) Online memory and logic tests, with an average duration of two hours, which can only be performed through a computer; (ii) face-to-face (or virtual, in certain circumstances), non-transferable and mandatory meeting, with an average duration of two hours; and (iii) online or face-to-face training ("Training") at the Campus of 42 Heilbronn and immersive with up to 26 days of duration, aiming at introducing the learning method and making the final step to select who will be admitted to the Educational Program.

The Candidate declares to be aware that the selection criteria for permanence in the Educational Program are exclusive to 42, not being possible to challenge and/or re-analyze his/her decisions.

In the third selection phase, the Candidate declares being aware that it will not be possible to conciliate the Training with other activities, given the demand and intensity of the Training.

ARTICLE 3 - ACCESS TO ONLINE INFRASTRUCTURE AND APPLICATIONS

Access to the Platform is strictly limited to registered Applicants and Students who participate in the Selection Process and/or the Educational Program.

ARTICLE 4 - BEHAVIOR

Candidates and Students who are using the Platform must behave correctly with all other Candidates, Students and individuals present in the Selection Process and/or the Educational Program. By applying for the Educational Program, or registering for an Educational Process, Applicants and Students agree to comply with the "Crew Commitment" set forth in Annex I of these Rules.

As such, according to the Criminal Code, any improper act in the digital environment is prohibited. The Candidate or Student is also forbidden to use the Platform for purposes and activities not related to the Selection Process or the Educational Program.

ARTICLE 5 - INFORMATION AND DISPLAY

The circulation of information related to the Selection Process and the Educational Program ("Information") among Applicants and Students is done through dedicated panel displays and

mainly electronically. Commercial, political, union, or religious advertising is strictly prohibited on the Platform and the Establishment.

The display and publication of Information on the Platform and the Establishment is free of charge and is subject to the following conditions: (a) its origin must be clearly indicated, (b) the Information must not be defamatory, (c) the Information must not adversely affect any concerns for privacy in any way, and (d) it must not be misleading.

The above provisions apply equally to all Information (including publications) written by Candidates or Students or associations they belong to.

All these provisions shall apply equally to electronic information devices. In case of violation of the rights of third parties, the staff of 42 may request that the Information, exhibits and/or electronic messages be removed and the publications suspended without prejudice to any possible action.

ARTICLE 6 - E-MAIL

Applicants and Students can communicate by e-mail, using a personal address using the format: <login>@student.42heilbronn.de.

The account is assigned to facilitate the flow of information between Candidates, Students and the administration of 42.

ARTICLE 7 - INTELLECTUAL PROPERTY / COPYRIGHT - COMPUTER LAW

42 has the broadest rights to use, duplicate and disseminate all documents or educational projects produced or carried out by Candidates, Students, employees or partners of 42 and published by their authors in any form (email, forums, ftp, web, cloud storage... etc.) during the Selection Process and/or the Educational Program.

However, the intellectual work and inventions made by a Candidate or a Student during the Selection Process and/or the Educational Program and, thanks to the knowledge or use of techniques, means or data obtained by 42, remain the exclusive property of the Candidate and/or the Student, provided that the intellectual property of other Students, Candidates or third parties is respected.

It is prohibited to transmit or disclose confidential or sensitive information of 42 or any of its attached structures or activities without prior consultation with the management of the Educational Program, as well as the 42 logo, and all documents produced by the Educational Program and 42.

Violation of the above paragraph may violate the scientific and/or economic interests of 42 and/or its partners and may be considered a serious fault. This prohibition also affects the privacy of the data and the process of 42's activities, its Candidates, Students, employees, teachers or related administrations, partners or companies, including preliminary and developmental studies.

Candidates and Students recognize that any violation of the law on fraudulent use of software and the law on fraud and computer piracy may result in civil and criminal penalties under the relevant jurisdiction.

ARTICLE 11 - PERSONAL DATA

As part of the curricular management of 42; the Candidate Selection Process; scholarship evaluation; giving access to the Platform to Candidates and Students; keeping the functionalities operational and updated, as well as to maintain relationships with the Candidates and Students, 42 may collect the information and Personal Data of Candidates and Students provided by the Candidate or Student at the time of registration for participation in the Selection Process and throughout the Educational Program. This helps 42 manage records and supervise the educational paths of Applicants and Students.

42 observes the current laws on security and protection of personal data ("Applicable Data Protection Laws"), in particular the General Data Protection Regulation (EU) 2016/679 (GDPR). 42 takes all technical and organizational measures to protect the Personal Data of Candidates and Students against loss, unauthorized use or other abuses, ensuring a level of security compatible with the activities performed by 42.

The Personal Data collected will be used for purposes related to the offering and operation of the Platform and may be shared with the service providers contracted by 42 for these purposes. We establish contractual obligations with our partners so that they also comply with current laws, in particular the applicable Data Protection Laws, and treat the shared personal data only within the limits of their respective services.

42 may also use the Personal Data of Applicants and Students to provide them with information about other educational programs developed by 42 or 42's partners. 42 allows Candidates and Students to unsubscribe from the contact database in order to no longer receive information about educational programs through 42.

42 will keep the Personal Data of Candidates and Students only for as long as necessary for the purposes set forth in these Rules or in accordance with legal or regulatory obligations.

Candidates and Students have the right to request access, rectification or deletion of their Personal Data handled by 42 or to revoke their consent, which may directly interfere with their participation in the Selection Process or Educational Program. 42 will provide the Candidate and the Student with access to their Personal Data to the extent required by applicable law. The Candidate or the Student may request the correction or deletion of his/her Personal Data, except when, in the context of a legal or contractual dispute, the retention of such Personal Data is required as a result of a contractual relationship with 42. If the request for access, rectification or deletion is denied, the Candidate or Student will be informed of the reason for such denial. If any Candidate or Student wishes to exercise their rights, 42 invites you to send a request to the following address: staff@42heilbronn.de.

For the purposes of these Regulations, Personal Data encompasses the meaning attributed to the term as described in GDPR.

ANNEX I

42 | Heilbronn - Student Commitments

Being 42 is...

1. Being HUMAN
2. Being in constant EVOLUTION
3. To have HUMILITY and have CURIOSITY when learning
4. To have AUTONOMY and DETERMINATION to go further
5. To have an eye for what's BEAUTIFUL
6. To exist in oneself, in others and as a whole in an HONEST and RESPECTFUL manner
7. To live COURAGEOUSLY
8. To not be afraid of being VULNERABLE
9. CARING for yourself and others
10. Building GENUINE RELATIONSHIPS based on COLLABORATION and CONFIDENCE

To be 42 is to PROGRAM CHANGE in your life, in your community, in the world. What are the commitments you will make as you embark on this new journey?

YOU:

My personal commitments:

DETERMINATION: Practice is the only way to learn at 42. We recommend that you plan at least 50 hours of work per week (more than 8 hours per day for 6 days). The goal of 42 is to make you, in three to five years, a qualified professional capable of sustaining a large workload of complex challenges. For this, you will have, from day one, to practice by working on many projects. You don't need to have any previous knowledge in programming, you can learn from scratch. But if you do, don't rely on your knowledge and don't stop doing the proposed exercises. Everyone here, regardless of their level, has something to learn and teach. Another important point: do not start a higher level exercise without having completed the previous ones. You will be in trouble if you do so.

SELF-RESPONSIBILITY: be autonomous on your path. 42 allows you to organize yourself as you wish. Don't wait for the knowledge to come to you: you are the protagonist of what you learn the moment you enter the school. Your professional life will most likely demand this attitude. Take advantage of 42 to exercise it. We do not provide any solution for the exercises. You will ask many questions during your journey, and finding the answers yourself is part of the game.

SELF-CARE: here you will have the opportunity to learn how to be a high level programmer, but without forgetting your own state of well being. One of the goals of 42 is to have the largest network of human programmers in the world and this cannot be possible without each student taking care of themselves. Therefore, sleeping well, having regular meals and doing

physical exercise will help you have a better journey. Good hygiene is also recommended:) (and may help you make more friends!). You can only help each other if you help yourself first.

EXCELLENCE: be rigorous. When a project is proposed, you must do it in its entirety, without omitting any guidelines and making sure you understand its objective. At 42, a project "nearly" completed is as good as a project that is "totally" incomplete. Pay special attention to detail. Your only reliable source of information about the instructions is the pedagogical team, do not rely on things you passively heard. Seek excellence.

HONESTY: cheating at 42 means not knowing how to redo an exercise, or explain what was done. Any student who is not able to redo their project behind closed doors is considered a cheater. Your worst enemy is yourself: never just think you know how to do something. Rather, ensure you know how to do it and show it to everyone.

WE:

My commitments with other students:

COLLABORATION: Learning among peers is one of the greatest strengths of 42. Here, power lies in the collective of students and knowledge is held by the entire community. Ask other students for help. Not only those in your close groups. Adventure out and seek your answers among new peers. You will have to lead workshops, supervise exams, and help people defend their projects for instance. Here at 42, you have a chance to improve your own collaboration skills by also improving those of the community. It's worth saying that all this happens in a face-to-face way. That is, it's necessary to be on Campus for the exchange to take place (circumstance allowing).

HUMILITY: Working as a group means confronting points of view with truth and love. If there are group problems, they must be solved within the group. We know that many conflicts will occur, but at 42 we will learn to neutralize them with humility and openness to dialogue. Poor relationship management is not a reason to fail in a project.

INTER-DEPENDENCE: Working in a group does not mean leaving the group to work on its own. When a member of the group has not been able to redo his exercise, the group must meet again and go over the solution for the member who hasn't grasped it fully. Defining goals and priorities is something you must do together, as a group.

GENUINE RELATIONS: Here you have the opportunity to learn about creating technology in a different way, live a unique journey and make friends for life. Build relationships and establish genuine connections with your peers. This can be your lifelong network, which will accompany you and help you solve problems that have not yet come up, whether in life or in your profession.

ALL:

My Commitments to 42

PASSION: 42 is a place of passionate people. It was designed to allow all those who do not recognize themselves in the traditional system to live their passion for technology. And it is this passion that will give you personal motivation to advance in the game and in your progress working on projects. Count on the community when you are going through difficult times. Find someone to listen to you and help you change. Everyone here is as passionate as you are.

HONOR: When you take action on your own accord, you can't blame anyone for your personal mistakes. When you commit yourself (be it to your group, the pedagogical team or the administration), you must do everything to honor it. This includes, among other things, exemplary punctuality in every step throughout your curriculum. We expect impeccable

personal attitude.

RESPECT: Respect people and objects around you. If we demand respect, we need to respect ourselves, others and the space, equipment and belongings of 42. We expect your commitment to be based on RESPECT. Taking care of everything, the other and ourselves is a value of 42.

FREEDOM: 42 is a learning space of the present, open 24 hours a day, 7 days a week. You are encouraged to make the most of it. For us, “fun” is an integral part of our whole journey. In 42 “going out” and “vacation” are synonymous with “working in groups at 42”.

CITIZENSHIP: When you enter 42, you are part of a community, you belong to a tribe where you are committed to work for you and for the perpetuity of 42. In practice this means, among other things, having a weekly quota of hours to devote to 42. These can be administrative, daily tasks or supporting the pedagogical team.
